Kilian Thornton took meeting minutes

### **Agenda is outlined below:**

- Events
- Iron Mic
- Website
- Training Update

The meeting started at 20:05 local and ended at 20:40 local.

The meeting opened with the resignation of Kilian Thornton as ACCIRL5 and the appointment of Eoin Brennan as the new ACCIRL5.

## Events

SM outlined that he was hoping to get controllers on this week for the Iron Mic award. However that has been reviewed and this will take place sometime in the future. He also stated that by achieving this award it can help put Dublin and Ireland on the VATSIM map.

## Website

CB outlined the progress and the development of the website so far, and said he is seeking further feedback.

## Training

DB talked about the progress of the Training Department. He stated we have two new members. SM and DB agreed that the Training Department is going to tackle the excessive delay that some members are facing at the moment on training.

## AOB

SM brought up a thought of having an event where all the controllers would meet in a hotel and control for the event which would be rostered. KT then suggested a Dublin real ops could be the event.

SM then thanked Kilian Thornton and Martin Bergin for their involvement in the planning and preparation for CTP and then thanked all those who participated.
