Eoin Brennan, ACCIRL5

---

## Introduction

Let me formally introduce myself to those that don't already know me. My name is Eoin Brennan ACCIRL5 and I am the new Events Director for VATEir vACC. I have replaced Kilian Thornton who has moved up the ranks to VATEUD6, I wish him the best of luck with his new role and I'm sure he will do as good a job and if not better as he's done here. In this document I will outline my plan for the next year. I will be introducing some new events along with some old but revamped events. On top of these there will be some major events as well. So without further ado I will move on to my plan.

## Events Plan

Below I will list out my main goals as Events Director:

- Revamping the two weekly Irish events. Both Ireland online and Cork online respectfully on Sunday and Wednesday. My aim will be not to rebrand them but to alter them so they are both interesting for pilots and ATC alike with something new every week thus increasing our traffic. I will be putting a roster system in place for these and priority will be to student controllers and controllers who constantly control in the airport.
- Along with the major events already have taken place this year and with the St Patricks day approaching and CTP Westbound, hopefully, I will be adding one or two more major events through the year 1 hopefully being a Real Ops. In mentioning Paddy's day myself and the rest of the staff will be working together to really improve this event this year.
- Resurrecting VFR night event. Hopefully I can resurrect the VFR night we recently had as it is a great way of teaching ATC how to control VFR effectively and pilots learning how to fly VFR.
- Suggestion form per week. Every week I will put a suggestion form onto the Events section forum. This form will help me and the rest of the staff to recognize what needs to be done in events we are hold and or what could be changed. The form can be anonymous or you can leave your name on it.

## Outline

The reason I want to revamp the current weekly events is simple because nobody is partaking in them anymore which is sad to see. I propose to not exactly rebrand them but to change them to make them more interesting for example every Sunday we could do a city twinning or something similar and every week we rotate the airports being used that way it's constantly fresh and gives everybody a chance also the variety every week should bring in more traffic. The Wednesday event I was hoping to mix in VFR night into that so that way people can refine their VFR skills while also manning Cork or Shannon gaining us traffic. Hopefully all these plans can be put into practice within the next year. I hope it will be a fun year for all and with a bit of luck we can bring up traffic levels within our vACC and also put on the VATSIM map as an important vACC. So I hope I can get along with everybody while in this role and look forward to the future within the vACC.

Eoin Brennan ACCIRL5  
VATEir Events Director
